

# Spring REST using Spring Boot 3 | Hello World RESTful Web Service

## Cognizant DN 5.0

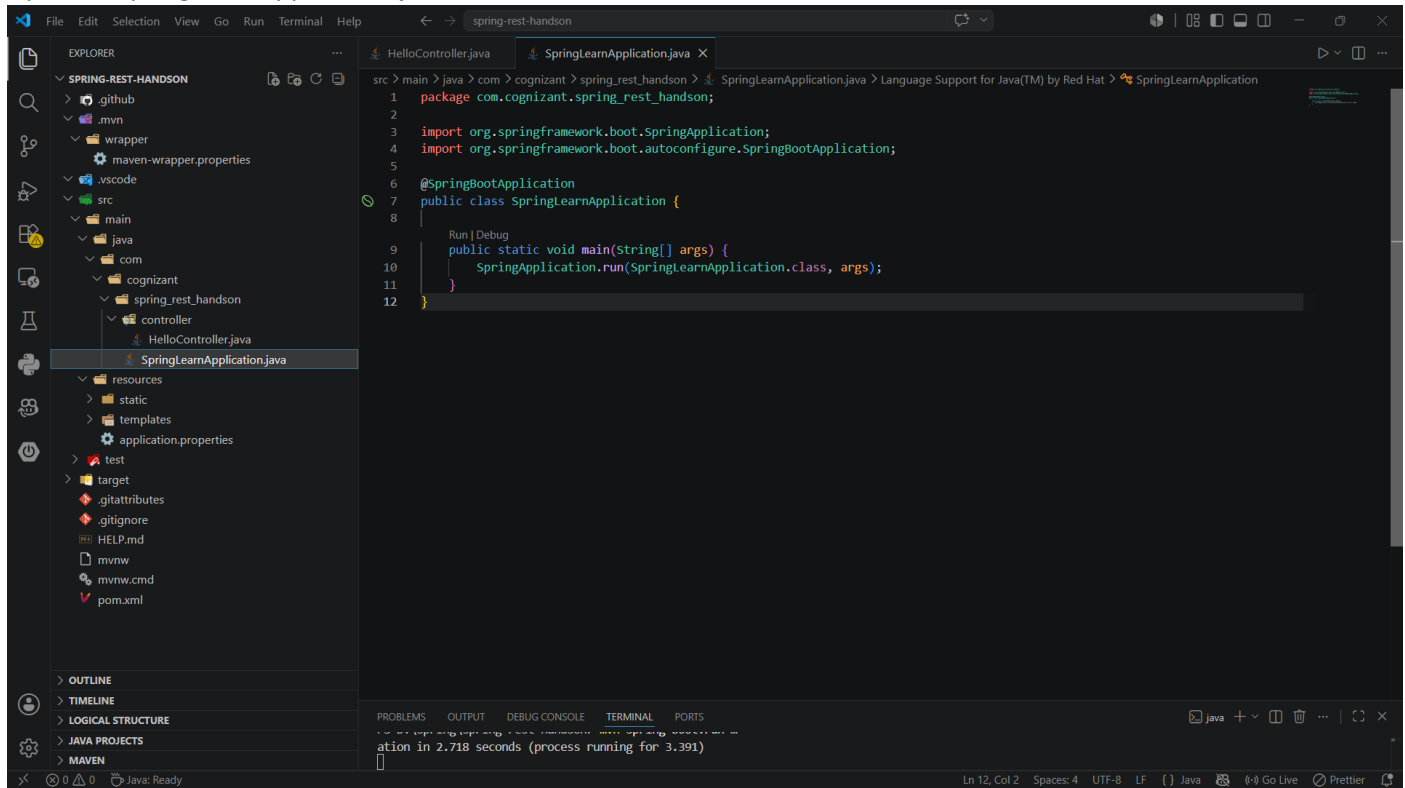

### 1.Using Spring Initializr: Created a Maven Project

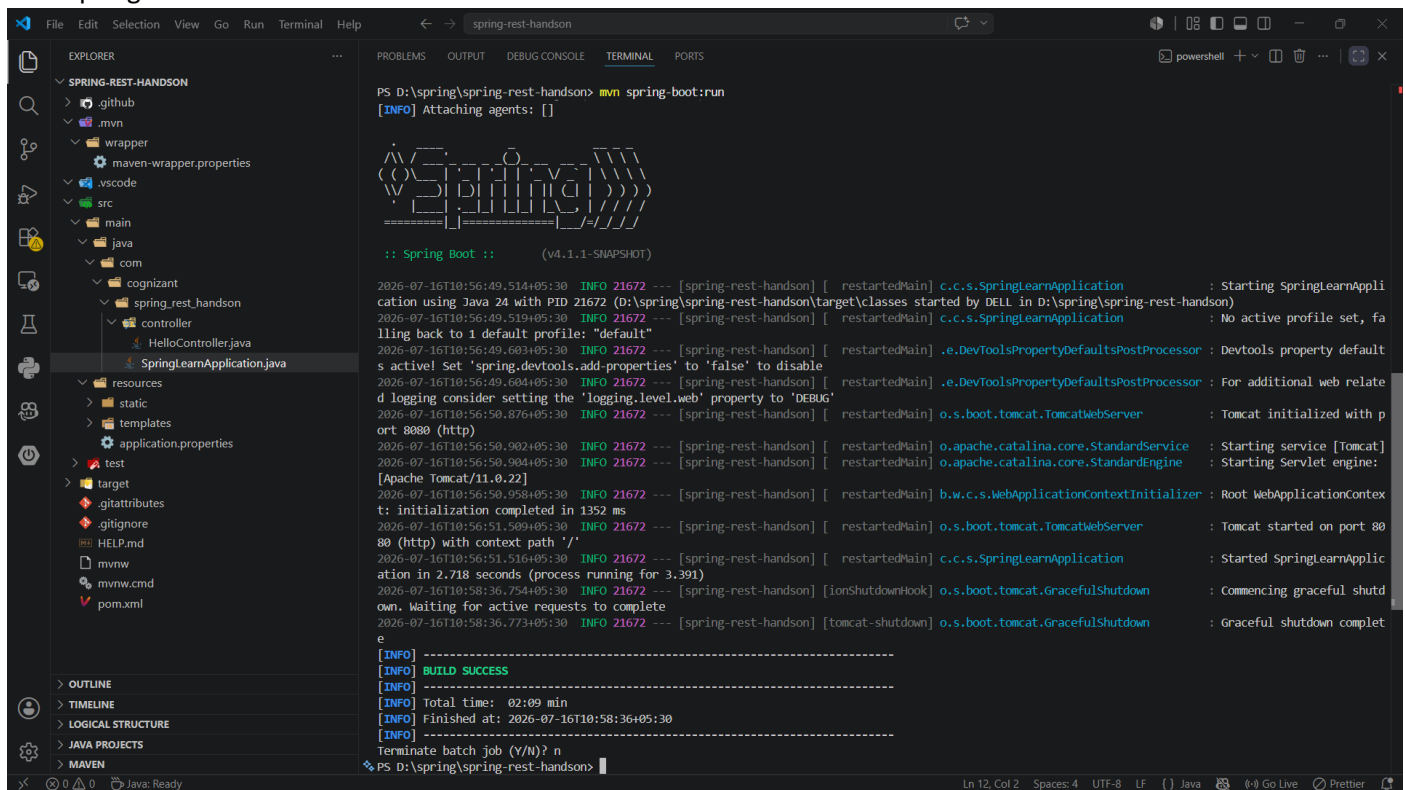

### Updated HelloController.java -

## Updated SpringLearnApplication.java -

## Mvn spring-boot:run -

Running successfully -

The image shows a web browser window on the left and a terminal window on the right. The browser window has the address bar set to `localhost:8080/hello` and displays the text `Hello World!!`. The terminal window shows the output of a Java application, including the following log messages:

```
ing-rest-handson] [ restartedMain] c.c.s.SpringLearnApplication : Starting SpringLearnAppli
